” COMPANY INTRODUCTION

TARGET CONTRACTING

MESSAGE FROM ...

TARGET MEP CONTRACTING ”

Dear **TARGET MEP CONTRACTING** Clients,

We believe that true success is not a matter of Chance, but rather a skill derived from right decisions taken at the right moments.

Since 2019, it has been our policy to be selective in our choices. We have always chosen our engineers to be highly skilled and motivated. We selected our technicians by properly filtering hundreds of candidates to recruit the right person in the right position. We are always in the quest for state-of-the-art technologies to meet the ever growing market needs.

At **TARGET MEP CONTRACTING** we believe that team work is the base of any success. Therefore, we have always oriented our staff to be independent thinkers, decision makers, yet team players contributing with their expertise and knowledge in the company's success, under the umbrella of a management who looks after every detail in every project from start to finish.

We believe that each member of **TARGET MEP CONTRACTING** family is an asset, from the smallest worker to the senior manager; that is why we maintain ties of mutual respect and understanding among our staff.

And more importantly, we have always believed that our clients are our partners in success. That is why all our business is bound by mutual respect, mutual benefit and support where needed.

All the above together are the values that made **TARGET MEP CONTRACTING** one of the country's most recognized companies in its field.

TARGET is always and will always be in quest for new challenges to face, new technologies to acquire and new horizons to explore.

WHO ARE WE ?...

TARGET MEP CONTRACTING ”

INTRODUCTION

Founded in 2019 , under the name of **TARGET MEP CONTRACTING**, the company became widely regarded as a major player **TARGET MEP CONTRACTING** of construction and contracting in Qatar.

Today, after 5 years of continuous activity, we managed to establish a chain of trust, reliability and integrity with all our clients.

We professionally executed many projects from private residential units to large commercial towers; And based on the philosophy saying that “success breeds success”, we consider each of these projects an added value to the company, and an incentive towards bigger projects and diversified fields.

Needless to say that **TARGET MEP CONTRACTING** is a company that prides itself on its name, its team and its clients.

TARGET one of Qatar’s largest and most empowered **TARGET MEP CONTRACTING** with financial facilities that gained us the trust and support of our banking partners regardless of the global situation.

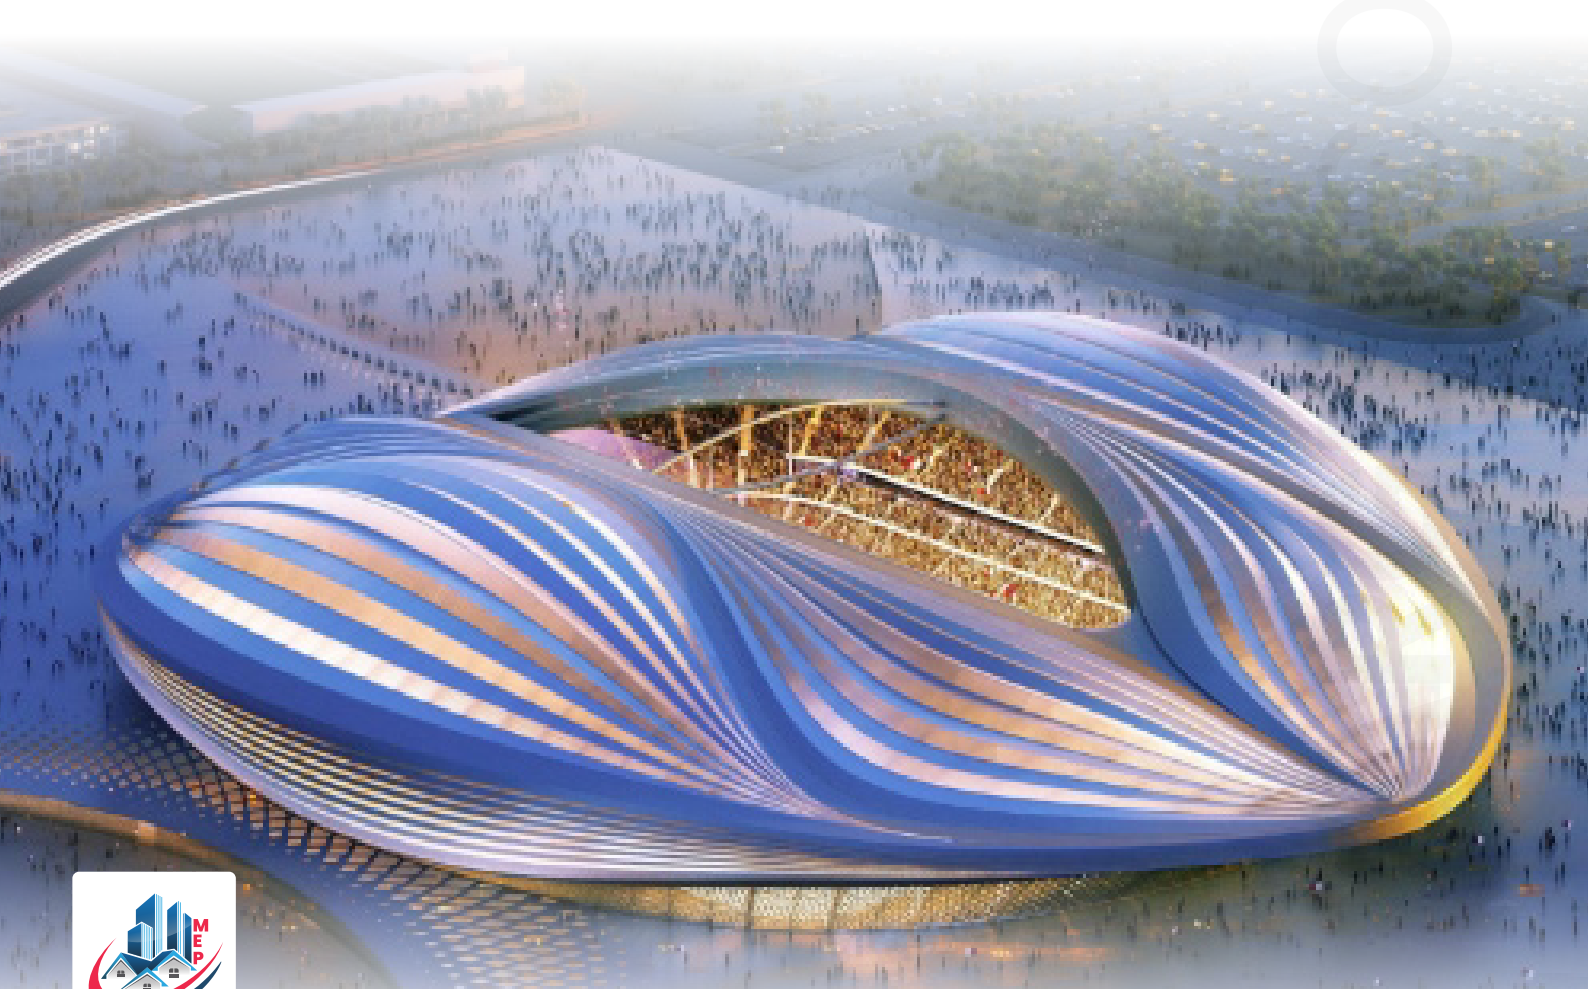

WHO ARE WE ?...

TARGET MEP CONTRACTING ”

OUR OBJECTIVE

Our objective is to execute all types of projects in a professional way that exceeds clients' expectations, and to efficiently maintain and operate the facilities of our clients through proper planning, scheduling and preventive measures.

MISSION ...

TARGET MEP CONTRACTING ”

TO deliver Value Engineered Projects on time and cost-effectively with high level Quality, environment and safety standards as per the international norms.

To provide continuous improvements on personnel and technical fronts to fulfil The Efficiency and productivity.

VISION ...

TARGET MEP CONTRACTING ”

To be a leading electro-mechanical Engineering, Procurement and Construction Company recognized for its excellence in executing MEP projects in conformity With high standards.

To be the clients' first choice in turnkey solution for specialized electro mechanical Requirements and MEP infrastructure works across Qatar.

”

TARGET SPECIALIZES
in the Following Fields of Activities...

**MECHANICAL
WORKS**

Heating & ventilation & Air Conditioning System :

- Air/Water Cooled Chillers, AHUs, FCUs
- VRF Systems, Package Air Conditioning System
- Exhaust/Car Park Ventilation System, Jet Fan System
- Fire Rated/Stainless Steel/GI Duct Works
- Chilled Water Piping System

Fire Fighting System :

- Fire sprinkler System (Wet and Dry)
- Deluge Systems
- FM200 Systems
- Novec System
- Fire PRO System
- Water Mist System

Plumbing & Drainage System :

- Hot & Cold Water System
- Deionized Water System, Medical Gas System
- Solar Heater System, Fuel System
- Water Filter System, Sanitary Fixtures & accessories

”

ELECTRICAL WORKS

ELECTRICAL WORKS :

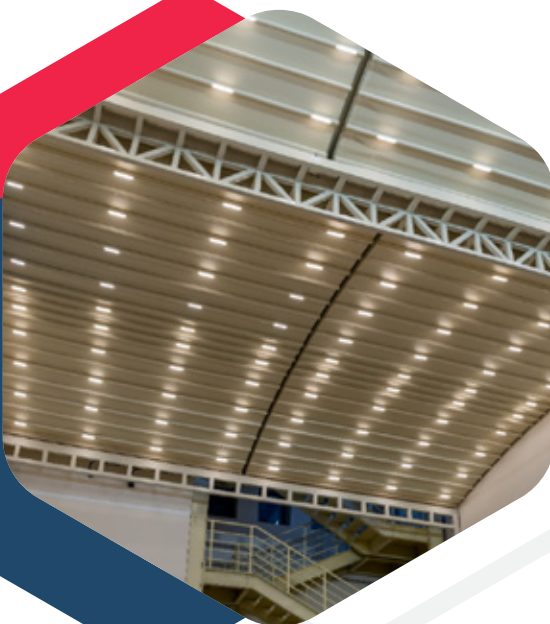

- Transformers Substations
- Power Generating Sets
- Power Distribution Networks
- Lighting Systems
- Uninterruptible Power Systems
- Underground Power Networks

EXTERNAL WORKS :

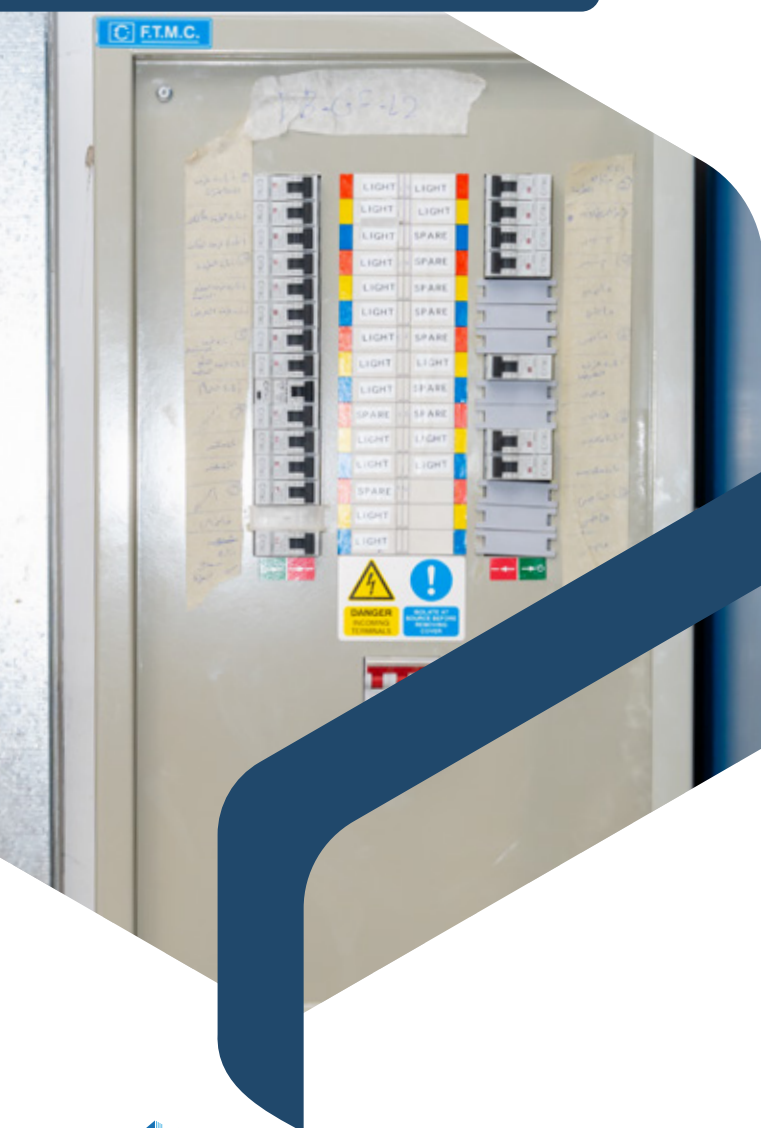

- Street Lights , High Mast Lights
- Landscape Lighting
- Feeder Pillars with Photocell
- External Cables
- HV Power System and Cabling
- Transformers
- Generators with Fuel System
- Stand-by Generators
- LV Switchgear and Cables
- ELV System / Structured Cabling
- MV Switchgear
- Water Supply Network, Firefighting Network
- Drainage Network
- Water Supply Tanks, Gray Water Tanks
- Plumbing Pumps
- Fire Pumps
- Chilled Water Pumps

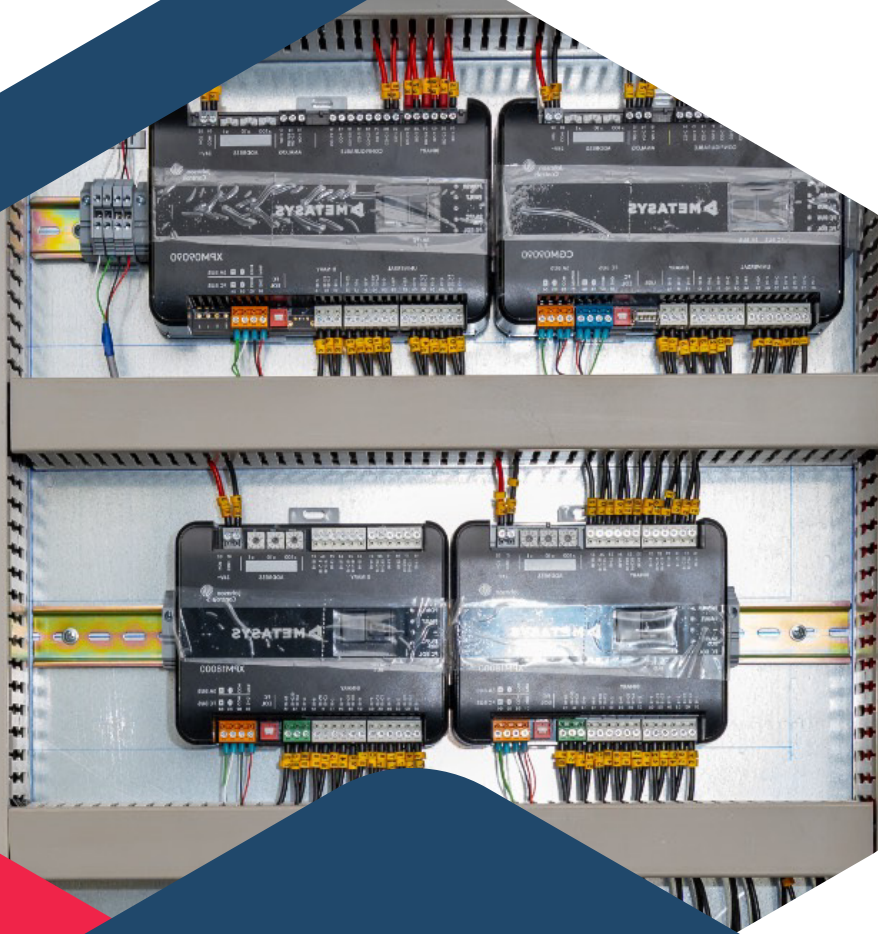

LOW CURRENT SYSTEM :

- Fire Alarm Systems, Water Leakage System
- CCTV Systems, Telephone, Data & Structured Cabling
- Public Address & Audio/Visual Systems
- Access Control and Intrusions Systems
- Building Management Systems
- Audio / Visual Systems
- Nurse Call System, SMATV System, Master Clock System
- Queuing & Parking Management System

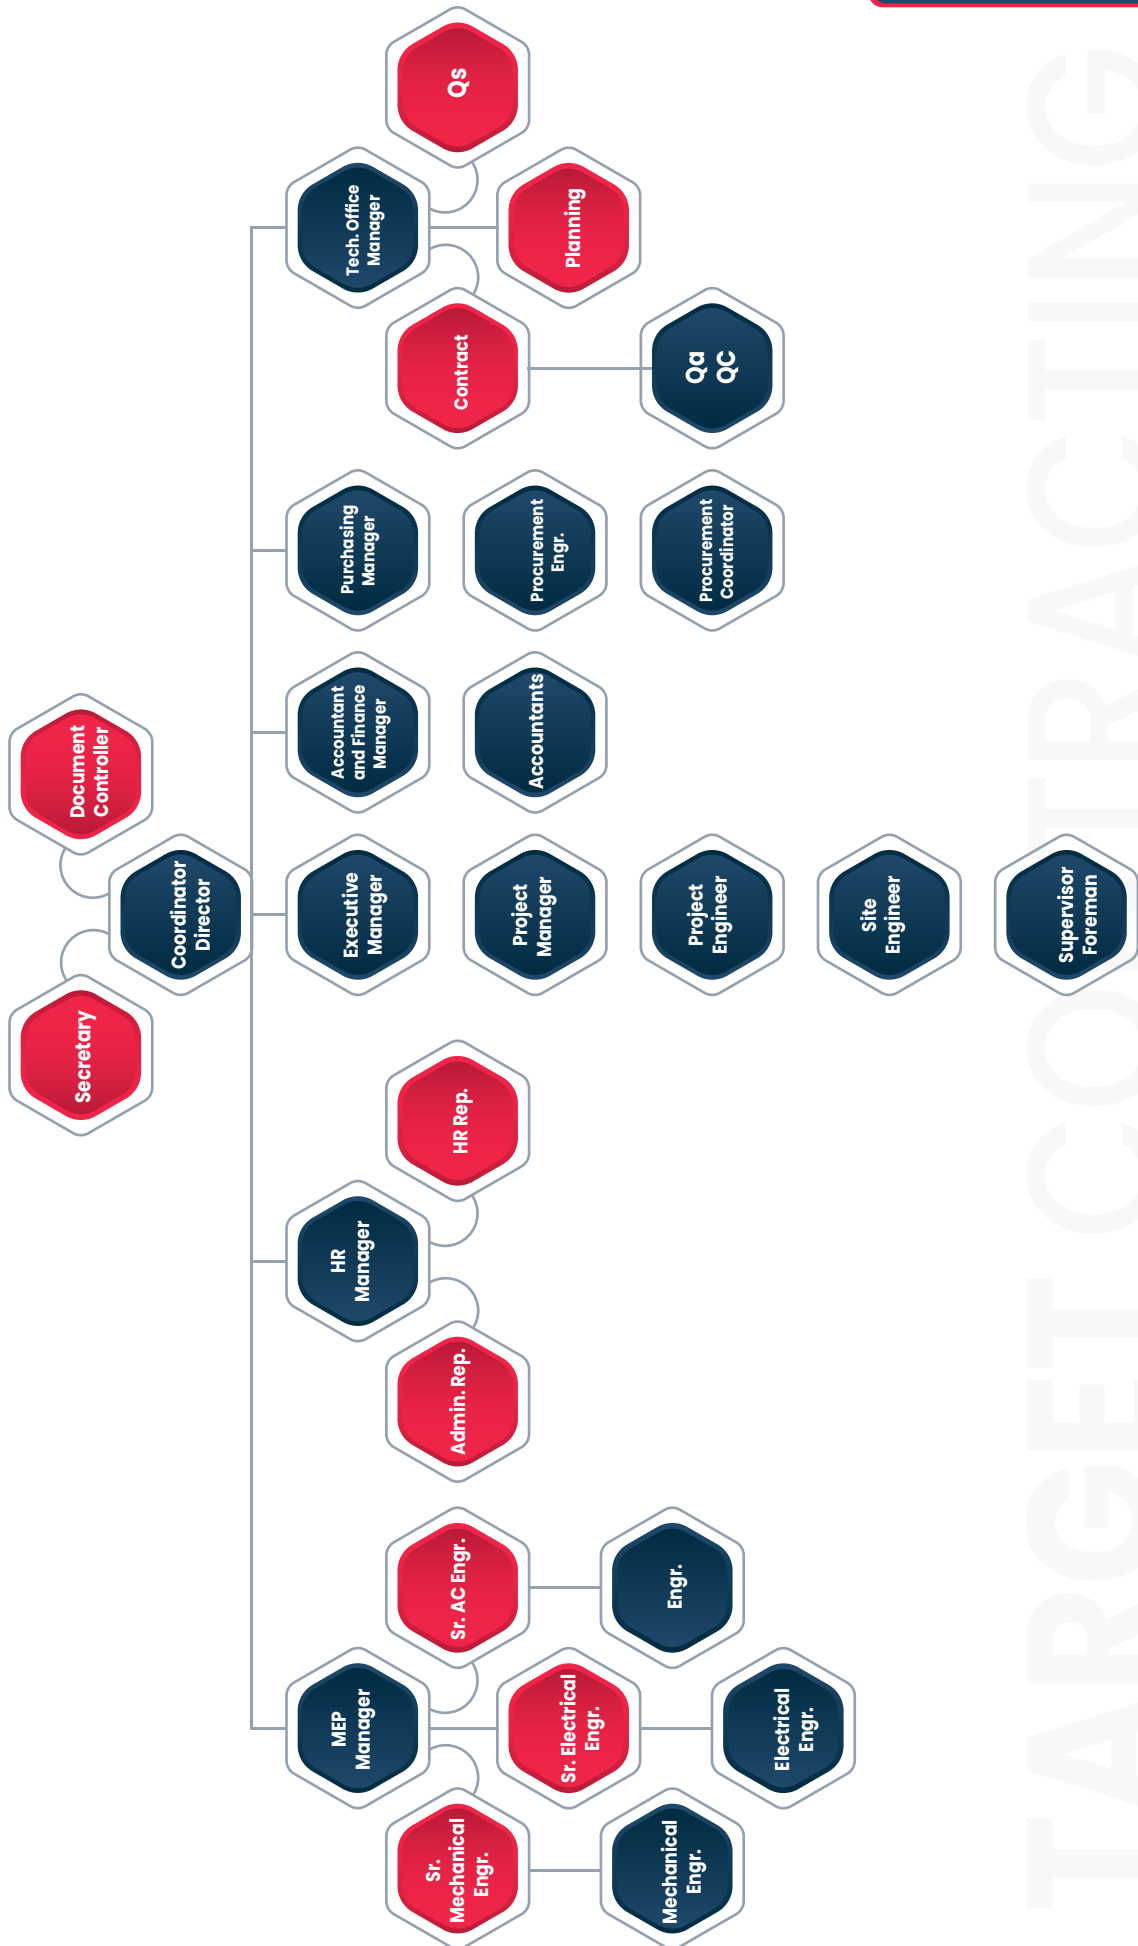

”

ORGANIZATION CHART

ORGANIZATION CHART

General Manager

MAN POWER ...

TARGET MEP CONTRACTING ”

The number of **TARGET's** work force is totally flexible according to projects requirements, and through its recruitment's associates, **TARGET** can mobilize hundreds of work force within reasonable time frame, making sure to always keep sufficient amount of visas ready to be used whenever needed, thus minimizing the mobilization period.

TARGET believes that quality is much more important than quantity, that's why all its employees pass through a filtration process to keep the most qualified people. Therefore we make sure that the right person is in the right position.

BRIEF DESCRIPTION OF MAJOR PROJECTS

- **Project Name:** Qatar National Library (Dar Al kutub)
- **Client:** Public Works Authority (Ashghal)
- **Consultant:** Arab Engineering Bureau (AEB)
- **Main Contractor:** Brick Stone Trading & Contracting (BSTC)
- **Built up area:** 2900 Sq. meter & 650 Sq. meter parking area.

Project Brief Description:

The project consists of 4 buildings with common car parking area , 2 buildings new one will be a kahramaa substation with utilizes room and the other one will be underground water tank include pump room and fire pump room, the other 2 buildings it is a renovation of Qatar National Library building (G1+), first building will be as library staff offices and the second building will be library rooms which include the books and show cases for old items.

MEP works:

- **HVAC system** mainly consists of 5 Modules of VRF, 9 AHU and 2 FAHU, it supplying the library buildings, 12 air condition split unit serving the utilities (telecom, Monitor, Server, Control, LV and pump) rooms, ventilation system fresh air and exhaust fans for pump room, generator room and toilets in main buildings.
- **Plumping -water supply system** mainly supplied by municipality water along with collection tanks and media filter system feeding to 16 m³ tank on the roof trough transfer pump system and also firefighting tank 8 m³.
- **Firefighting system** mainly consisting of 3 systems:
 - water Mist system which it is using the air pressure with water through sprinklers and fire hose reels it consist of one GPU 200 bar and 50 capacity 50 Liter pump with air compressor and 36 Nos of air cylinders, the system cover some important rooms in the main building.
 - **Aerosol System** which it using the foam system FP300 with fire pro panel, generator and sensors, it is using mainly in MV, LV, Generator and MCC rooms
 - **Aerosol System** which it using the foam system with supreme XT panel, generator and sensors, it is using mainly in telecom and CCTV equipment rooms
- **Electrical Power** - which consists of Oil transformer 1000KVA connected to 1600A LV panel which it is supplying the power to the project with back up generator 250KVA to supply power for some emergency loads.
- **UPS system** - mainly consists of 2UPS 25KVA for each, which it is supply the power to important load like CCTV, fire alarm, BMS systems to keep it running in case of main power discounted till the generator start up through ATS panel.
- **Central Battery System (CBS) system** - Mainly consists of Emergency light and Exit fittings each device has different address all connected to CBS rack and PC , which has the batteries and it is showing the status of the system , in case of any fault , error happen , this system is covering the main building only.

- **Lighting Control system (LCS)** – It consists of control panels in each electrical room and Motion sensors in common area (corridors, stairs) and Touch panels in rooms and one PC in control Room, we can control all the light which is connected to this system to dimming lights up or down , to set timers for switch on & off or dimming.
- **Fire alarm system** – which is giving alarm and signals in all the project in case of fire, Most of the system is interfaced with fire alarm system (HVAC- Sound system- Access control- Gate barrier -Life- Fire fitting – Generator) to monitor in case of any fire happen and to control the other systems.
- **Sound system**- it consists of speakers and rack which has amplifier, CD player, Cassette player, Back up batteries, console Mic ,... so it is using for music , attention massage and mainly is using as evacuation system in case of fire.
- **CCTV**- it is consists of Cameras Devices (Dome camera, Bullet Camera, ANPR camera for main car entrance and exit and PTZ camera in all the building, monitor room with monitor screens and equipment room which has racks switches Hard disks.
- **IPTV system** – it is consists of Antenna Dish on the roof and Head end rack in the control room with all active component, this IPTV rack is connected to MDF rack, so we can provide TV signal in the building through DATA points.
- **Access control** – which is consists of door controller connect to magnetic lock and Keypad, this system is covering the services rooms only (Electrical Room, ELV rooms, Telecom room, CCTV equipment , CCTV monitor room and control rooms

- **Project Name:** Mechanical, Electrical Refurbishment Works For 96 Flats At Mesaieed
- **Client:** Qatar Energy
- **Consultant:** Qatar Energy
- **Main Contractor:** Arabilla Trading @ Contracting Company W.L.L.

Project Brief Description:

Ten (10) Blocks Of ELS Family Accommodation In Total 96 Flats In A Compound At Mesaieed Are 35 Years Old . QP Has Requirement To Upgrad And Renovate These Accommodation Units. The Services Shall Be Performed In Accordance With This Scope Of Services And All Standards And Requirements Referred To Qatar Energy .

MEP Works:

Electrical Works:

Replacement Of GI Boxes In The Walls And Renovation Of Enclosures For Distribution Boards .
Replacement Of Wiring For Lighting And Power Points And Cable Tray ,Ladder.
Laying Of L.V Feeder Cables And Install Tap off Unites On Bus-bar .
Renovation Of MDBS And SMDBS And Change Telephone Wire.
Disconnect And Remove The Existing Light Fitting And fix New Lighting Units.
Supply And Install New Electrical MeterPanel Including The Electrical Meters

Plumbing:

Water Supply System Mainly Suplied By Municipality Water Along With Collection Tanks .
Install Of PPR Pipes And Fittings In All Bathrooms, Kitchens And From Water Tank To Eery Unit.
Install Of UPVC Pipes From Bathrooms, Kitchens , Roof Drain And Floor Drain To Manhole.
Install Sanitary Ware And Accessories For All Bathrooms And Kitchen.

HVAC System:

Shall Upgrade As Necessary The Existing AHU Including Replacement Of Damage And Associated Items To Ensure AHUs Are Working Efficiently To Provide Sufficient Cooling

Supply And Install AHU Parts Contols And Associated Items As Necessary

Repaire As Necessary The Existing Ducting Including Replacement Of Damage Ducts And Insulations, Supply And Install Air Distribution Outlet

After Complet Work Testing ,Adjusting And Balancing Of AC Airflows

Fire Alarm System:

Install Trunking / Cable Trays In Risers , Pulling Cable From Various Devices Throug Conduits Install And Terminate Fire Alarm System Devices In Various Areas This Activity Will Run Concurrently With Finishes And False Ceiling Activities Install Fire Alarm Panel In Ground Floor And Terminate Loops And Bell Circuit Wires Testing And Commisioning System.
